

ACS-LA's Ultimate Whale Watch is here!

Join us on this exciting all-day adventure!

Saturday, April 28, 8am to 5pm

Our ULTIMATE WHALE WATCH will leave from San Pedro and head toward the west end of Catalina Island to look for whales, dolphins, seals, sea lions, birds, and other marine life.

Tickets are just \$60 for ACS/LA members (\$70 for non-members).

The northbound gray whale migration is in full swing with daily records being set! Other whales we hope to see include fin whales, humpback whales and minke whales, and a variety of dolphin species, including long and short-beaked common dolphins, bottlenose, Risso's and Pacific white-sided dolphins.

Experienced naturalists will be aboard to narrate the trip. A full galley is available aboard the newly renovated Native Sun.

Purchase tickets online today: www.acslawhalewatch.eventbrite.com

Tickets are non-refundable unless the Captain cancels the trip. Unused tickets will be considered a donation to ACS/LA.
