

"South Bay Pollinators"
Presented by Emile Fiesler

For PV/SB Audubon Society
Tuesday, November 21, 2017, 7:00 PM
Madrona Marsh Nature Center, Torrance

Emile Fiesler will give a slideshow-assisted presentation on **pollinators**. The focus will be on species found in our South Bay area.

Pollinators serve a critical role in the reproductive cycle of approximately 90% of the world's flowering plants, including most of our local native species. Insects, and a few vertebrates, also pollinate most the world's staple crop plants that feed human kind, including the majority of our fruits and nuts.

Questions are encouraged to make this an interactive event.

Emile Fiesler is president of Bioveyda, performing minimally-invasive biodiversity inventories, surveys, and assessments. He is passionate about the outdoors and our environment in general.

Light refreshments will be served. Everyone welcome! Come and enjoy the program, socialize with friends, and fill out a ticket for the door prize drawing.

Prizes are donated by Wild Birds Unlimited in Torrance, courtesy of Bob Shanman. <http://www.torrance.wbu.com/>

The Madrona Marsh Nature Center is located at 3201 Plaza del Amo, Torrance, CA, 90503: <http://www.friendsofmadronamarsh.com/>

You can find additional information about our programs and activities at our website: <http://pvsb-audubon.org/index.html>

Next Program: "TBA", presented by Jess Morton, on January 15, 2018, 7:00 P.M.
