

"Wild and Colorful Peru"
Presented by Randy Harwood

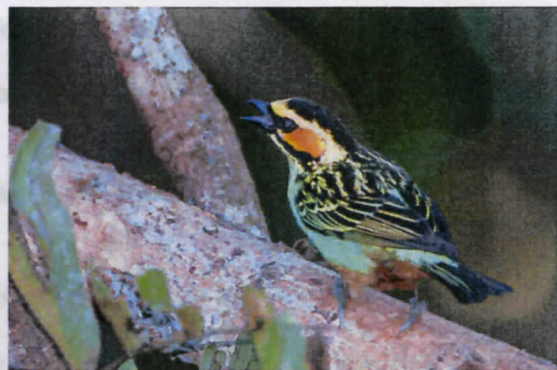

For PV/SB Audubon Society
Tuesday, October 17, 2017, 7:00 PM
Madrona Marsh Nature Center, Torrance

Peru is an amazing country that is a paradise for history, archaeology, culinary and trekking enthusiasts and birders and is home to more bird species than any other country in the world except for Columbia.

Randy will discuss **Machu Picchu, the Nasca Lines, Cusco and the Amazon** and take you on a visual journey through this beautiful and colorful country.

Machu Picchu

Golden-eared Tanager

Hoatzin

All photos taken by Randy Harwood

Nasca

Randy Harwood has been fortunate to travel with his wife and friends to many wonderful countries for over 40 years. For the first 25 years he was primarily visiting warm-water locales for SCUBA diving and underwater photography. When he took a group of wildlife enthusiasts to East Africa in 2003, he began attempting to shoot with "long" lenses above water. Africa also got him hooked on birding as well as enjoying being in the presence of almost any wild thing.

Randy has been organizing "adventure and dive" travel excursions for over 30 years. He visited Machu Picchu, the Ballestas Islands and the Peruvian Amazon in 2016.

Please visit his website at www.rkh-photography.com

Light refreshments will be served. Everyone welcome! Come and enjoy the program, socialize with friends, and fill out a ticket for the door prize drawing.

Prizes are donated by Wild Birds Unlimited in Torrance, courtesy of Bob Shanman. <http://www.torrance.wbu.com/>

The Madrona Marsh Nature Center is located at 3201 Plaza del Amo, Torrance, CA, 90503: <http://www.friendsofmadronamarsh.com/>

You can find additional information about our programs and activities at our website: <http://pvsb-audubon.org/index.html>

Next Program: "South Bay Pollinators" presented by Emile Fiesler, on November 21, 2017, 7:00 P.M.
